

COVER LETTER

Aurelio Muñoz Hijano
C/ Cristo nº26 1ºA CP 29700 Vélez-Málaga (Málaga)
TEL. +34 654429579 / MAIL. aurelio@sparanza.com

Dear Sirs:

I am a Higher Degree Technician in the development of electronic products, Nowadays I'm student of the Higher Degree in Web Application Development [DAW] and Multiplatform App [DAM] (in the absence of a final project in the training cycle), I have 8 years of experience as a graphic designer and programmer in laSexta and finally carried out company practices in the company Hostgreen SL of the Technological Park of Malaga with a duration of 5 months.

I have always been interested in software development, the creation of 3D virtual worlds. In addition, I have previously studied studies with .Net technology, achieving the Microsoft MTCS.NET, all of which combined it with the desire to learn technologies such as OpenGL, DirectX, Vulkan, among others, like Angular, Electron and Three.js .

I consider myself a person with a great capacity for learning, always in constant renewal, seeking new goals and challenges which can overcome me, but above all, I like to work as a team, because that is how the biggest projects come to be.

Once again I reiterate my great interest in being part of a development group in which I improve my development and coding qualities.

Waiting for your news,

Receive a warm greeting

Aurelio Muñoz Hijano

A handwritten signature in black ink, appearing to read 'Aurelio Muñoz Hijano', written over a long, thin horizontal line that extends across the width of the signature.

Aurelio Muñoz Hijano

Previous job
Graphic Designer & programmer,
'laSexta TV'

Current job
UI Motion Designer, GoldenRace

Applied studies
Higher Degree Technician development
of electronic products (2001 / 03)

Studies done nowadays
Higher Degree in Multiplatform
Application [DAM](Oct. 2015 - 2018)

Higher Degree in Web Application
Development [DAW] (Desde Oct. 2017)

I have always worked in the world of graphic design, although I have taken my studies in the field of computer science since I studied the CFGS of Electronic Products Development in 2003 in Malaga as the Microsoft certificate in 2009 and now Completing my DAM CFGS Currently. I have been working for 8 years as a graphic designer and programmer on the national TV LaSexta TV (www.lasexta.com) in programs such as laSextaNoticias, Jugones, ARV, MVT, laSextaNoche, ... During my career at laSexta I have been responsible for designing of the news that was currently happening of graphics for such through the design software such as Photoshop, After Effects, among others and especially the Broadcast Viz Artist broadcast system of the company Vizrt being currently certified Pro System, since 2016 by Vizrt. I have also been in charge to carry out projects with this system in special programs which have required the use of programmed systems distributed in networks, handling MYSQL, JSON, XML data, and Wins Forms as for example in the reception of Spanish National Election data for the visualization of them in special TV Shows.
